Education

MSc in Data Science Engineering , Politecnico di Torino	Mar 2025 – Present
• Weighted Average: 27+/30 • Core Coursework: Financial Engineering, Machine Learning & Deep Learning, Time-Variant Data Analysis, Computational Linear Algebra, Mathematics in Machine Learning, Data Management & Visualization, Distributed Architectures.	
BSc in Electronic Engineering , Politecnico di Torino	Sep 2021 – Mar 2025
High School Diploma , Liceo Scientifico Galileo Ferraris	Sep 2016 – Jun 2021

Experience

Research Analyst , Starting Finance Club PoliTo – Torino, TO	Sep 2025 – Apr 2026
• Built Python pipelines to collect, clean, and analyze time-series data, applying statistical modeling to derive insight into asset interactions and portfolio behavior.	
Teaching Assistant , Politecnico di Torino – Torino, TO	Sep 2025 – Feb 2026
• Provided teaching support to first-year engineering students during their Python problem-solving sessions, helping them build foundational programming skills and improve their logical thinking.	

Projects

Advanced Reinforcement Learning Suite	
• Implementation and benchmarking of VPG, Actor-Critic, and PPO algorithms. The project focuses on optimizing policy-based methods to solve complex control tasks within OpenAI Gym environments.	
News Classification via Textual Metadata	
• Developed a robust classification system using Support Vector Classifiers (SVC). The model leverages textual metadata to categorize news articles with high precision across multiple domains.	
Computational Linear Algebra Toolkit	
• A comprehensive study of matrix factorization and dimensionality reduction. Applied PageRank, PCA, and Spectral Clustering to extract structural insights from high-dimensional datasets.	

Technologies

Languages & Databases: Python, SQL, PostgreSQL
Data engineering: dbt, Airflow, Docker, PySpark, Hadoop
Frameworks: NumPy, Pandas, PyTorch, Scikit-learn, Matplotlib, PySpark
Tools: Git, VS Code, Shell, JupyterLab

Languages

Italian, Native speaker
English, IELTS Academic Band 7.5 (C1)

Volunteering

Volunteer , Croce Rossa Italiana	Mar 2024 – Feb 2025
